### DETAILED ACTION

#### *(Continued Examination Under 37 CFR 1.114)*

1 A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 05 2006 has been entered.

Applicants amend each independent claim 1, 14, 28 and 43 by the definition that a Lewis acid catalyzed macromer comprises a Lewis acid, and a phosphorous compound reacts with said Lewis acid.

### REASONS FOR ALLOWANCE

2 The following is an examiner's statement of reasons for allowance: The claimed invention is a preformed stabilizer comprising the reaction product of: (a) a Lewis acid catalyzed macromer comprising a Lewis acid; and (b) at least one ethylenically unsaturated monomer; wherein said macromer and said monomer are polymerized in the presence of at least one free radical initiator, a carrier polyol, and at least one phosphorous compound, and wherein said phosphorous compound reacts with said Lewis acid.

Reference of record Patent 6,172,164 to Davis et al does not disclose that the phosphorous compound reacts with the Lewis acid.

Art Unit: 1711

The new search has been made.

The closest reference is Patent 5,814,699 to Kratz et al. While Kratz discloses a continuous process for producing highly stable polymer polyol comprising the reaction mixture of styrene and acrylonitrile, a base polyol (carrier polyol), a macromer, a free radical initiator, and a reaction moderator, and a catalyst including tin(II) salt of carboxylic acid, Kratz does not disclose a phosphorous compound reactive with a Lewis acid.

Claims 1-60 are deemed to contain allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
